November 27, 1995

To whom it may concern:

I have had the pleasure of working with Dario DiMare over the past 3 years on several projects at the Boston Herald. The work including the CADD documentation of our existing conditions consisting of more than 300,000SF, various building renovations, and our Sunday and Daily inserting projects.

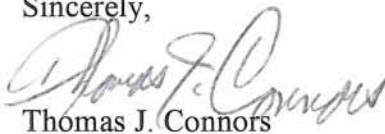

I found Dario to be very honest and up-front. His knowledge of both Architecture and the newspaper industry is impressive. During our Sunday Inserting project, Dario used his skills and contacts to actually save us more than one million dollars. Needless to say, that made the publisher smile!

One of the highlights of working with this company is Dario's integrity. When Dario Designs Inc. gave us a budget or quote they were consistently right on. The one time they went over their quote, they stuck to their word, and insisted we pay only what was initially agreed upon. This was very refreshing!

During all of our projects Dario paid special attention to our future needs and interests. He made sure our renovations were completed in a way that would make any future additions or renovations easier to construct.

I can only say that one would be fortunate to have a person with such knowledge and integrity on their team. I highly recommend Dario Designs Inc. for just about any project within the printing and publishing industry.

Sincerely,

Thomas J. Connors
